Re: **Brittany Rae Thaler Matter**

EXAMINATION REQUESTED

Additional evidence was provided to me regarding marital documents. This information is intended to supplement my QDE Lab Report #21-091321.3. I was provided with four screenshots of documents reportedly retrieved from county records. I was asked to opine as to whether or not the handwriting present on these documents was written by the same writer as those provided to me for earlier examinations having been written by Brittany Rae Thaler.

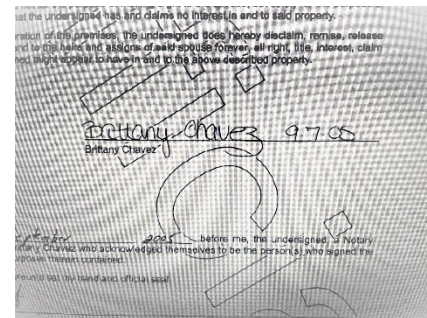

DOCUMENTS SUBMITTED FOR EXAMINATION

Mr. Thaler provided digital copies of the current evidence via email. I also used comparative documents submitted for an earlier report produced March 14, 2021. I have been asked by my client to offer some observations that will provide support for my ultimate opinions.

My full and complete report will be submitted upon request. By no means is this summary intended to be used as a report of my expert opinions.

OBSERVATIONS

Following are excerpts from the digital evidence provided. The signature illustrated below (Poly3) contains the same patterns and rhythm as other samples provided for examination from previous assignments. While the characteristics observed cannot be definitively identified as the writing of Brittany (Chavez) Thaler, the individualizing characteristics present in seemingly unrelated documents is significant.
